- Over the past 25 years or so, I have continued to work in a cross-section of areas encompassing: Technology Transfer and R&D Planning; Human Resource Development; and Intellectual Property Management. I personally believe that these areas-distinct, yet cognate, are important for the functioning of any research mandated organization.
- Responsible for R&D Strategy and Policy Planning, Annual and Five Year Research Plans formulation for CSIR.
- Conceptualized, set up and managing CSIR's Human Resource Development Centre, having a mandate for skill enhancement/upgradation of CSIR staff.
