

Research Interests

PARTICIPANTS' AREAS OF RESEARCH AND TECHNICAL WORK

*	Committee Member
**	Speaker

*Mark Hasegawa-Johnson***, *University of Illinois at Urbana-Champaign*

Interpersonal communication is obstructed by language barriers, disability, and ignorance. I like using the mathematical theory of communication to solve human problems. My group has developed systems that understand the disabled (dysarthria) better than unfamiliar humans, retrieves broadcast news in any language, reads lips, and teaches Chinese.
