

The Role of the Program Officer at NIH

Richard K. Nakamura, Ph.D.
Deputy Director
National Institute of Mental Health

NIMH
National Institute
of Mental Health

National Institutes of Health

Much of the biomedical research in the United States is supported by the Federal Government, primarily the National Institutes of Health (NIH)

Mission

The NIH mission is to *uncover new knowledge that will lead to better health for everyone*. NIH works toward that mission by: conducting research in its own laboratories; supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad; helping in the *training* of research investigators; and fostering *communication* of medical and health sciences information.

NIH Goal

“...the goal of NIH research is to acquire new knowledge to help prevent, detect, diagnose, and treat disease and disability...”

U. S. Department of Health and Human Services

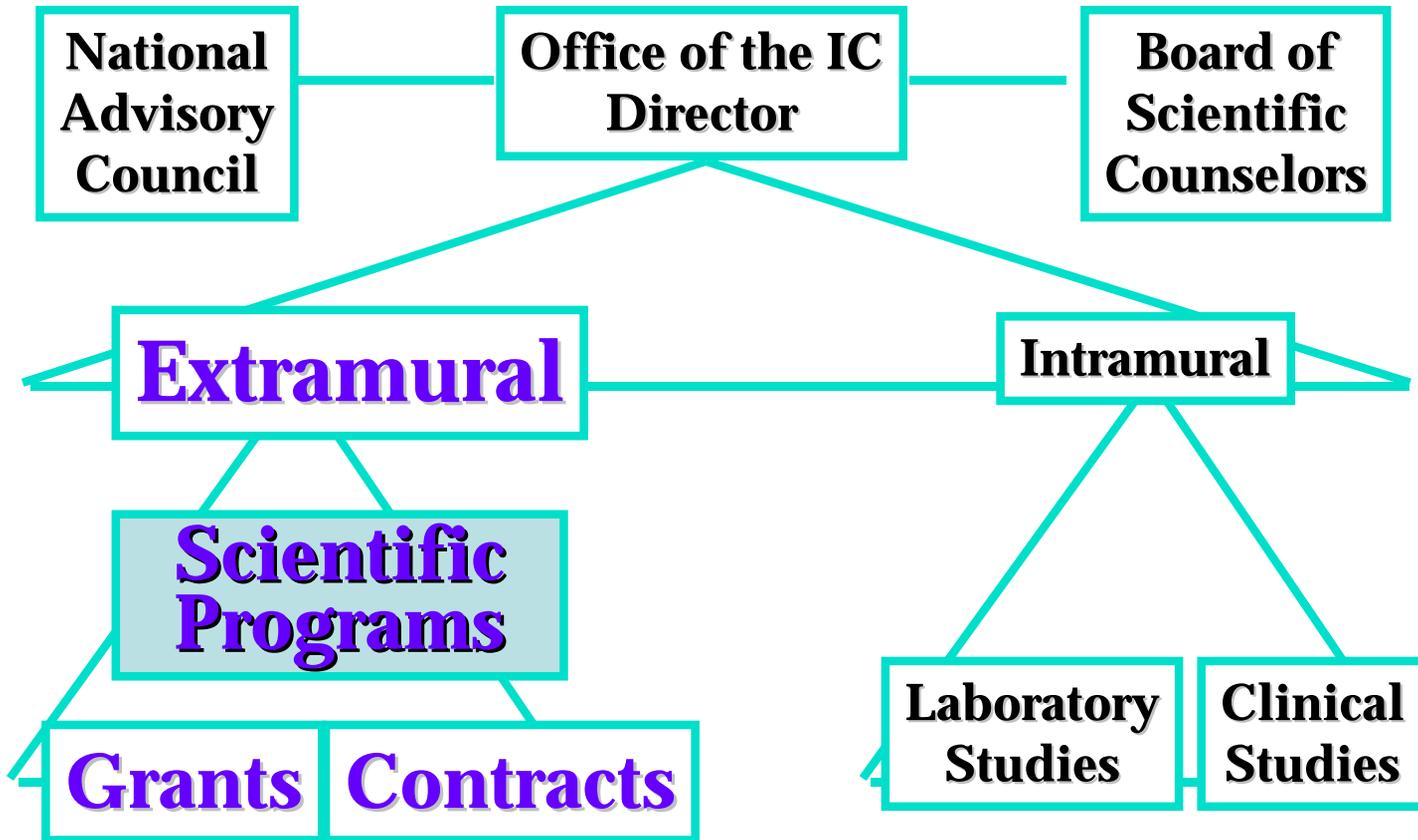

National Institutes of Health

NIH Extramural Awarding Components

- National Cancer Institute (NCI)
- National Heart, Lung, and Blood Institute (NHLBI)
- National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)
- National Library of Medicine (NLM)
- National Institute of Child Health and Human Development (NICHD)
- National Institute of Deafness and Other Communication Disorders (NIDCD)
- National Institute of Environmental Health Sciences (NIEHS)
- National Institute of Neurological Disorders and Stroke (NINDS)
- National Institute on Aging (NIA)
- National Institute of Allergy and Infectious Diseases (NIAID)
- National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS)
- National Institute of Dental and Craniofacial Research (NIDCR)
- National Eye Institute (NEI)
- National Institute of General Medical Sciences (NIGMS)
- **National Institute of Mental Health (NIMH)**
- National Institute for Nursing Research (NINR)
- National Institute on Alcohol Abuse and Alcoholism (NIAAA)
- National Institute on Drug Abuse (NIDA)
- National Center for Complementary and Alternative Medicine (NCCAM)
- National Center for Research Resources (NCRR)
- National Human Genome Research Institute (NHGRI)
- National Institute of Biomedical Imaging and Bioengineering (NIBIB)
- Fogarty International Center (FIC)
- National Center on Minority Health and Health Disparities (NCMHD)

A Typical Institute/Center

IC Director

**Appoints all staff and recommends
members of advisory bodies**

**Makes funding decisions based on
review, council and program**

Sets research directions

**Now reviewed by NIH every four
years**

NIMH Mission

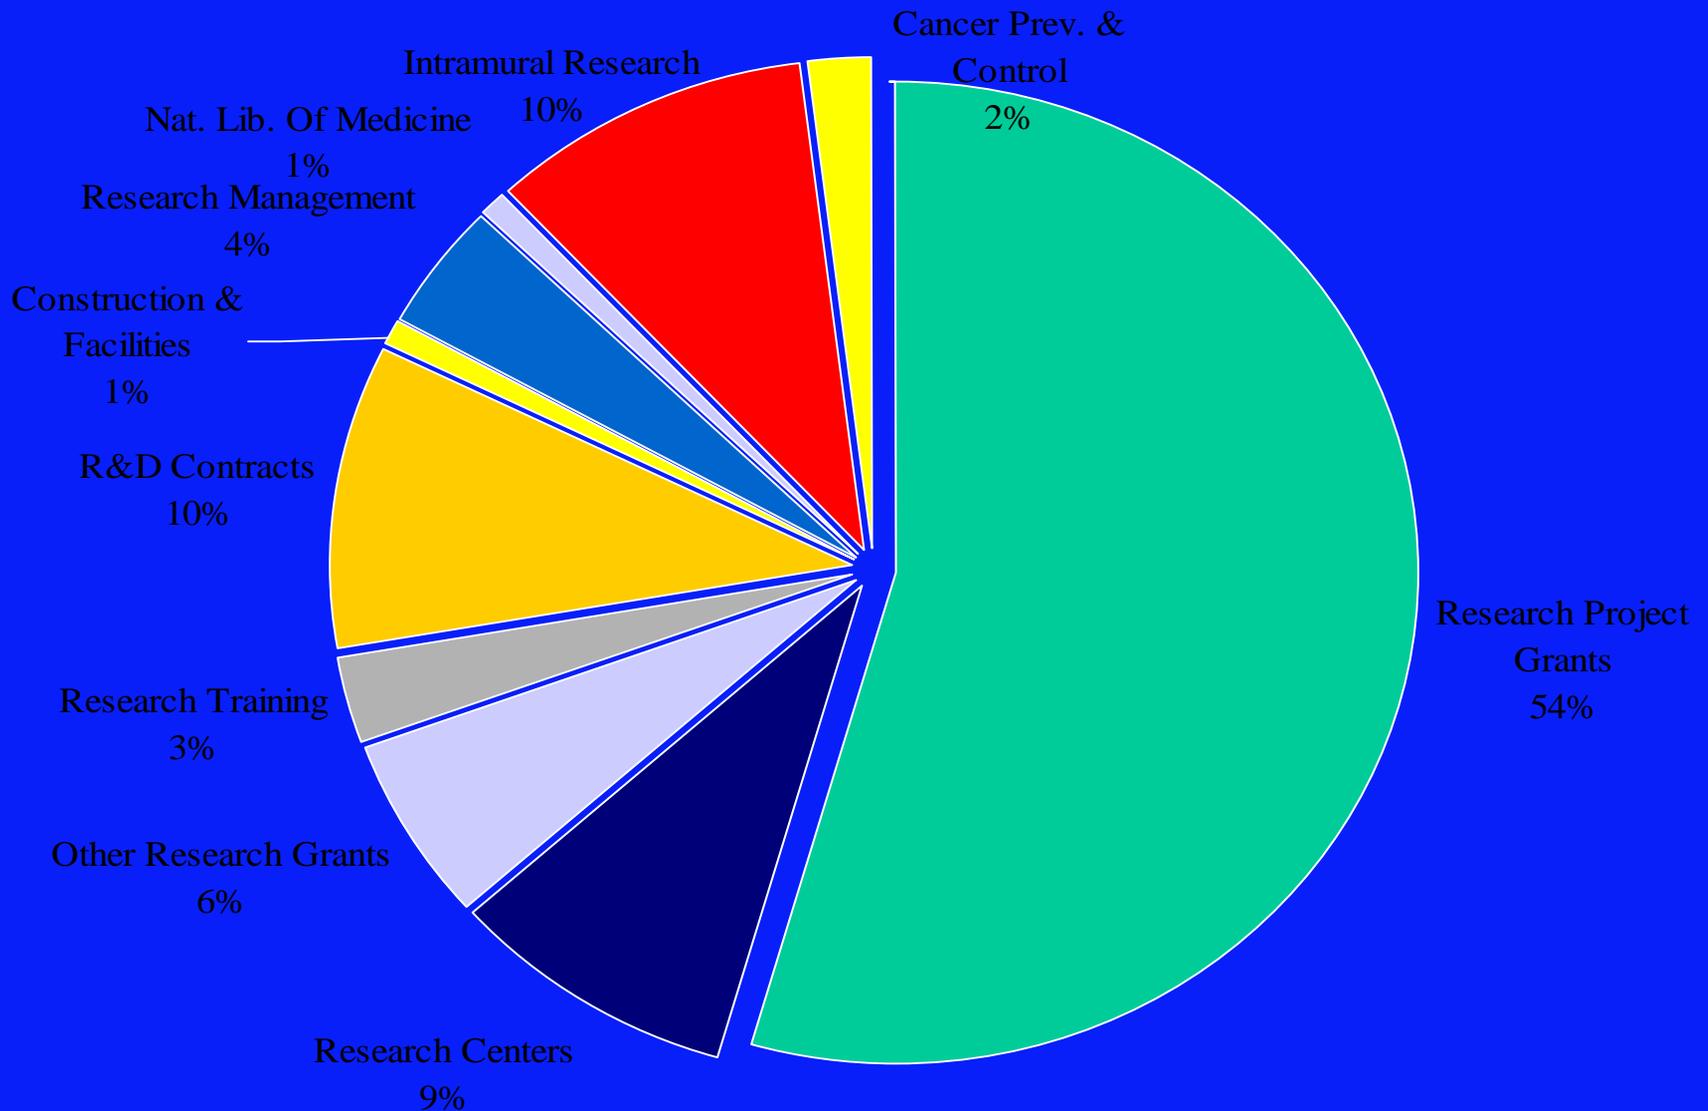

**Reduce the burden of mental illness
and behavioral disorders through
research on mind, brain and
behavior**

NIMH Facts

- **NIMH budget is over \$1.3 billion**
- **7th Largest Institute of the NIH**
- **Most goes into more than 4500 research and training grants around the country based on expert review that funds less than 1/5 of applications**

NIH Funding in FY 2004: By Mechanism

Total = \$27B

Key Concept

NIH scientific success is built on funding of science projects selected through a process of severe competition (peer review). About 25% of applications are funded.

*Within Each Institute
Extramural Divisions are
Responsible for Program
Development &
Implementation*

Clear

(Maximum of 1000 Results per Query)

Overall Timeframe from Submission to Award

There are three overlapping cycles per year :

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	JAN	FEB	MAR	APR	MAY	JUN	JUL
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

Cycle 1

Cycle 2

Cycle 3

Key Concept 2

Separation and independence of program and review . This is different from the US National Science Foundation.

NIH Layers

President of USA

**Secretary of Health and Human
Services**

NIH Director

IC Director

Division Director

Branch Chief

Program Officer

PO Primary Job

Support extramural grants, contracts and training with the goal of improving national health.

NIH Research Support Mechanisms

- **Grant: NIH supports projects proposed by a Principal Investigator**
- **Cooperative Agreement: NIH is partner with substantial program involvement**
- **Contract: NIH asks scientists to do research that NIH proposes.**
- **Training grant: for training of future scientists**

PO Duties

- **Advise grant applicants**
- **Attend scientific review**
- **Make funding recommendations**
- **Monitor awarded grants**
- **Foster specific science through initiatives and meetings**
- **Talk to public**
- **Maintain his/her own scientific expertise**

Society for Neuroscience Annual Meeting 2001

Workshops/Conferences

- **Assess the state-of-science**
- **Identify research needing stimulation**
- **Present suggestions from individual scientists**

Initiatives

Program Development

Identification of Priority Areas

- **Staff Analysis & Evaluation**
- **Input from Leaders in Scientific Community, NIMH Director, and NIMH Council Members**
- **Recommendations from Planning Groups & Workshops**
- **Final decision by NIMH Director**

Scientific Initiatives

**PO develops Institute
priority areas into
concepts for Initiatives**

**Institute
Review**

**National Advisory
Mental Health Council**

**Announce to
Research Community
(NIH Guide)**

Program Announcement *(PA)*

- Invites grant applications in a given research area
- May describe new or expanded interest in a particular extramural program
- May be a reminder of a continuing interest in a particular extramural program
- Generally has no funds set aside
- Applications reviewed in CSR along with unsolicited grant applications

Requests for Applications (RFAs) *& Proposals (RFPs)*

- Announcements describing an institute initiative in a well-defined scientific area
- Invitation to the field to submit research grant applications or contract proposals for a one-time competition
- Set-aside of funds for a certain number of awards
- Applications generally reviewed within the issuing institute

What Determines Which Awards Are Made?

- Scientific merit
- Program Considerations
- Availability of funds

NIH Home Page - www.nih.gov

Welcome to NIH

An overview and introduction to NIH including an employee directory, the Director's page and maps of the NIH "campus" in Bethesda, Maryland

News and Events

The NIH Calendar of Events, press releases, special events, and more.

Health Information

A selection of some NIH health resources such as the NIH Medical Guide, Alerts, the Women's Health Initiative and information on various diseases and conditions under investigation at NIH.

Funding Opportunities

Information specific to NIH [grants](#) including application kits, grants policy, the NIH Guide for Grants and Contracts, award data and research information. Also information on NIH [research contracts](#), including Requests for Proposals and information on the submission of contract proposals.

Scientific Resources

Intramural (on-site) research news and information, library catalogs and journals, research information, computer and network support for researchers.

Institutes and Offices

The NIH home page is only the beginning. Here you will find links to the many individual organizations that collectively make up the NIH. Some of these sites provide full-text consumer information.
