

Press Session at Science Agora 2018

November 9, 2018

Japan Science and Technology Agency

What is Science Agora?

Science Agora is the biggest open forum of science in Japan, where everybody can attend and communicate, aiming for deepening the relation between science and society. Citizens, researchers, experts, the press, people from industries and government, and others get together beyond boundaries.

What should we learn and acquire in this AI oriented era ?

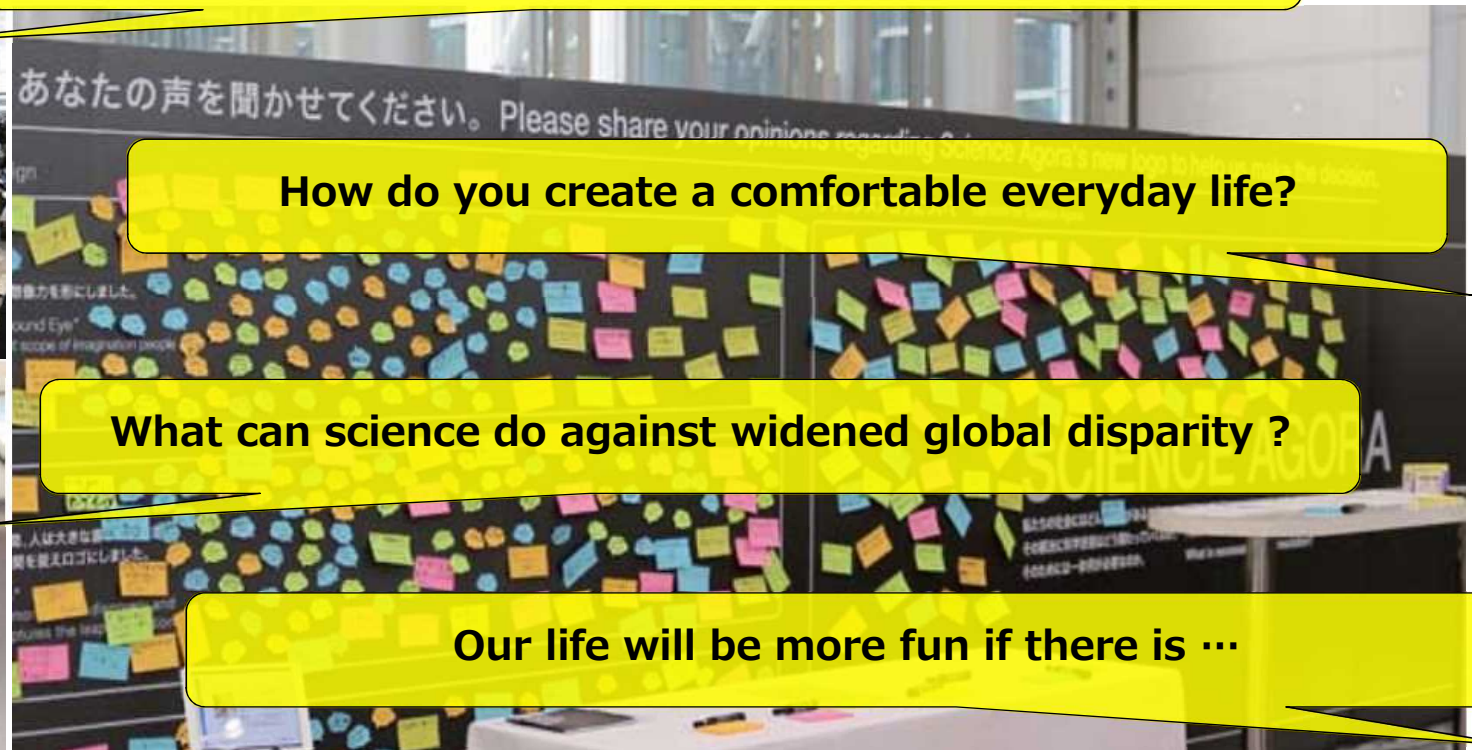

How do you create a comfortable everyday life?

What can science do against widened global disparity ?

Our life will be more fun if there is ...

Outline of Science Agora 2018

- Date : November 9 (Friday) - November 11 (Sunday), 2018
10:00-16:00 (The first day is 13:00-16:15)
- Venue : •Ceremony & Keynote lecture: **Miraikan** (November 9)
•Main venue: **Telecom Center Building** (November 10 & 11)

【Features】

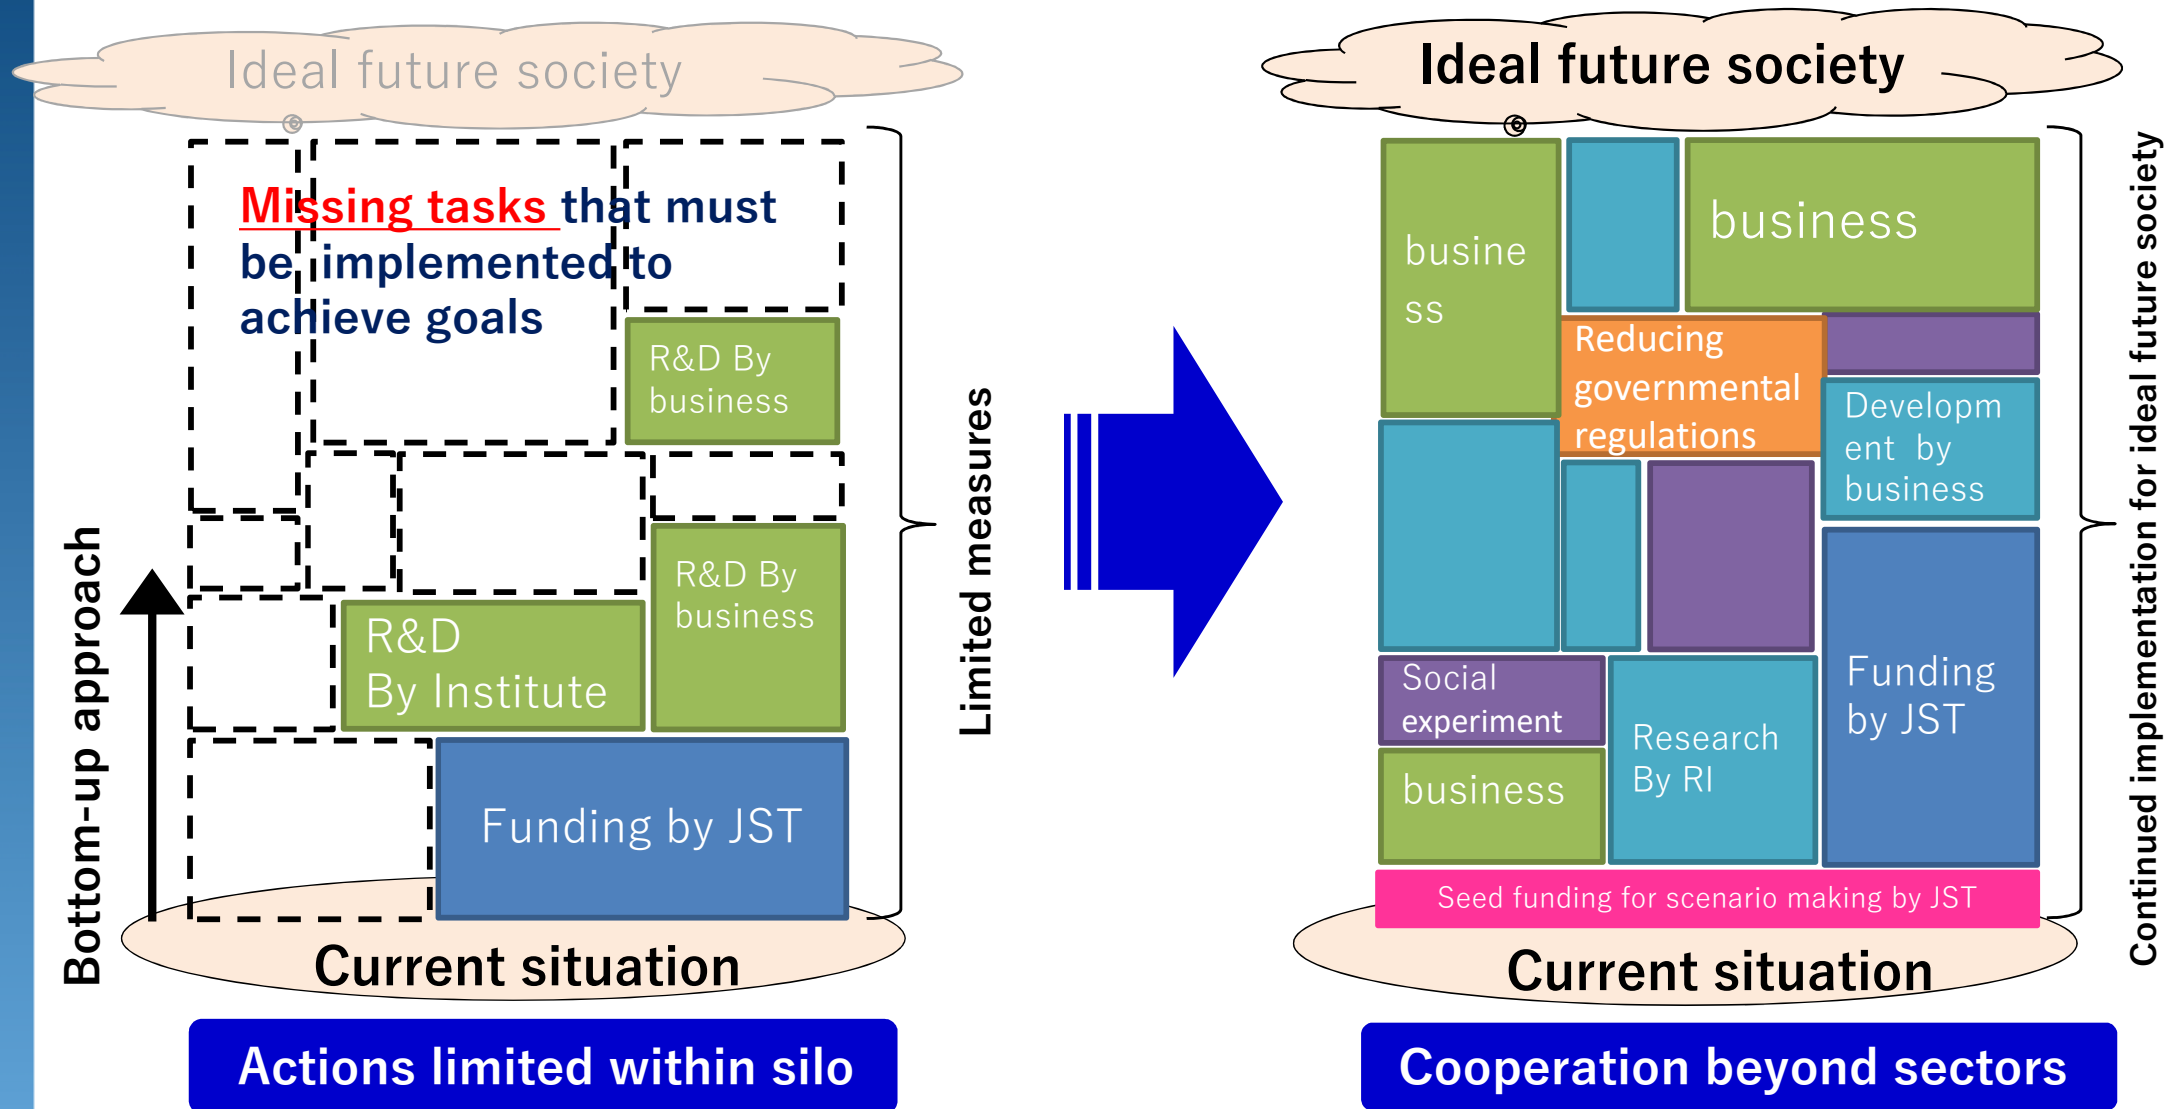

1. Programs that promote “co-creation” to solve social issues
 - Sharing “co-creation” models
 - Various programs for attaining SDGs
 - Symposiums to talk about the future society with the next-generations
2. Encourage young people’s participation
3. Hearing voices of citizens about social expectation and issues toward science and technology

120 programs—everyone can participate

The programs consist of dialogues with scientists, symposiums, workshops, and exhibitions, including booths and sessions.

Why 'co-design/co-creation' ?

JST's Activities for “Co-creation”

1. Science Agora

2. Activities

JST–Mirai Project

Center of Innovation (COI)

Research Institute of Science
and Technology for Society

Science and Technology
Research Partnership for
Sustainable Development

3. STI for SDGs

- ① Promoting public awareness and education
(SDGs for All, STI for All)
- ② Implementing programs that contribute to the achievement of the SDGs
(STI for SDGs)
- ③ Promoting our operations that incorporated the views of the SDGs
(SDGs for STI)

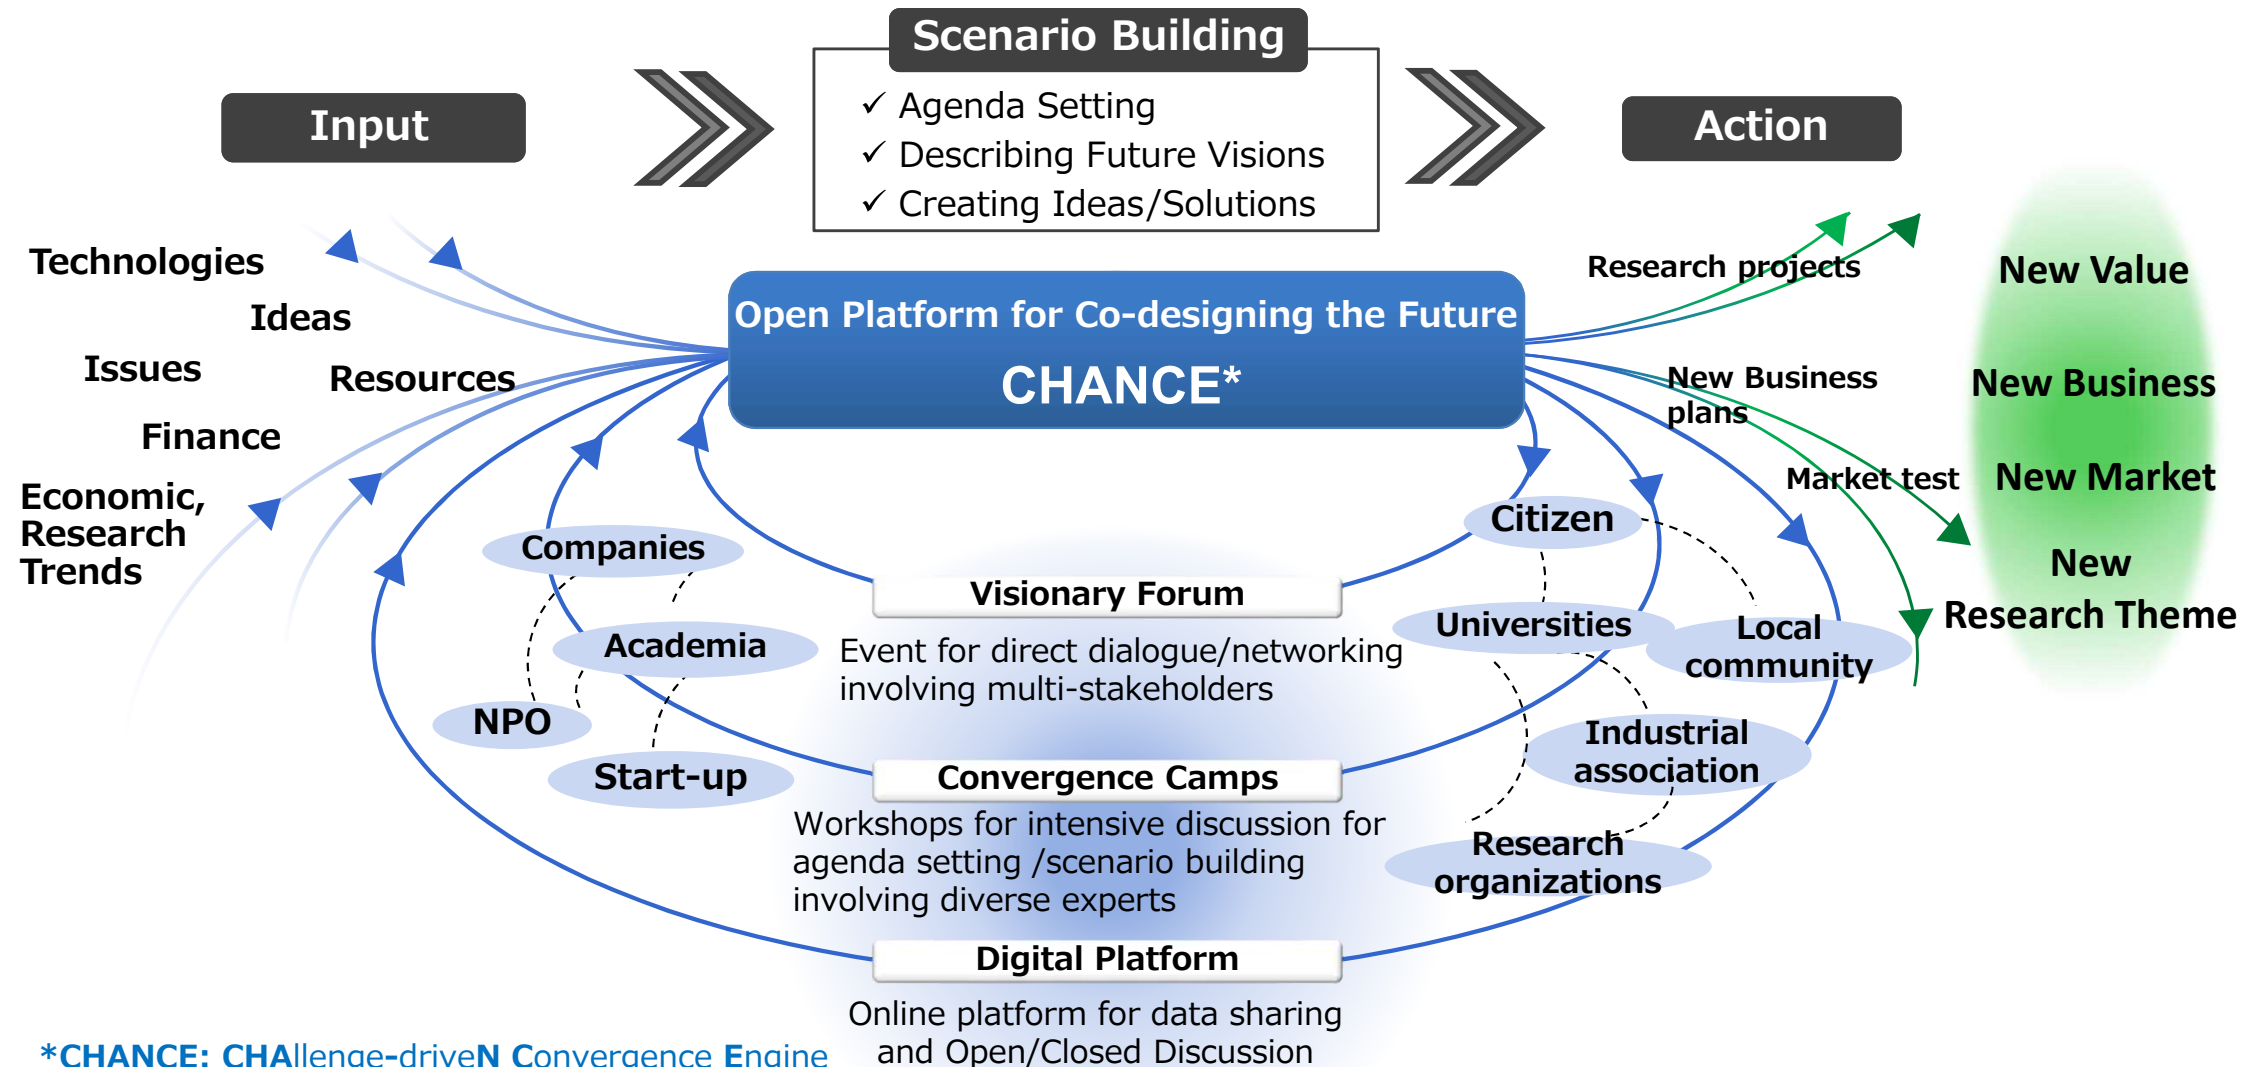

4. Designing future society—Open Platform (CHANCE)

The 'CHANCE' Initiative

Open Platform for Co-designing the Future Society

Key Concept: "Co-design & realize a sustainable future society with multi-stakeholders"

- A co-design framework involving diverse multi-stakeholders (Academia, Public/Private Sector, NPOs...)
- Breaking "Silos" and introducing convergence* & diversity into innovation ecosystem
- Accelerating continuous creation of innovation/solution to address societal issues for the sustainable future

***CHANCE:** CHallenge-driven Convergence Engine

***Convergence:** Creating **NOVEL** ideas by integrating various knowledge given by diverse stakeholders

Declaration of the Budapest World Conference on Science in 1999

Science holds four responsibilities;

Science for knowledge; knowledge for progress

Science for peace

Science for development

Science in society and science for society

The World Science Forum

- The main theme of 2017
Science for Peace
- The main theme of 2019
Ethics and Responsibility of Science

SDG Index & Dashboard

- **The SDG Index and Dashboards Report** has been produced annually since 2016 by the Bertelsmann Stiftung and the Sustainable Development Solutions Network (SDSN).
- It ranked countries by the progress toward achieving the SDGs based on the detailed analysis of data.

<Japan's results by the SDG Index & Dashboard>

<http://www.sdgindex.org/>

*Green: Already achieved
Yellow / Orange: Critical status
Red: Very far from achieving a goal

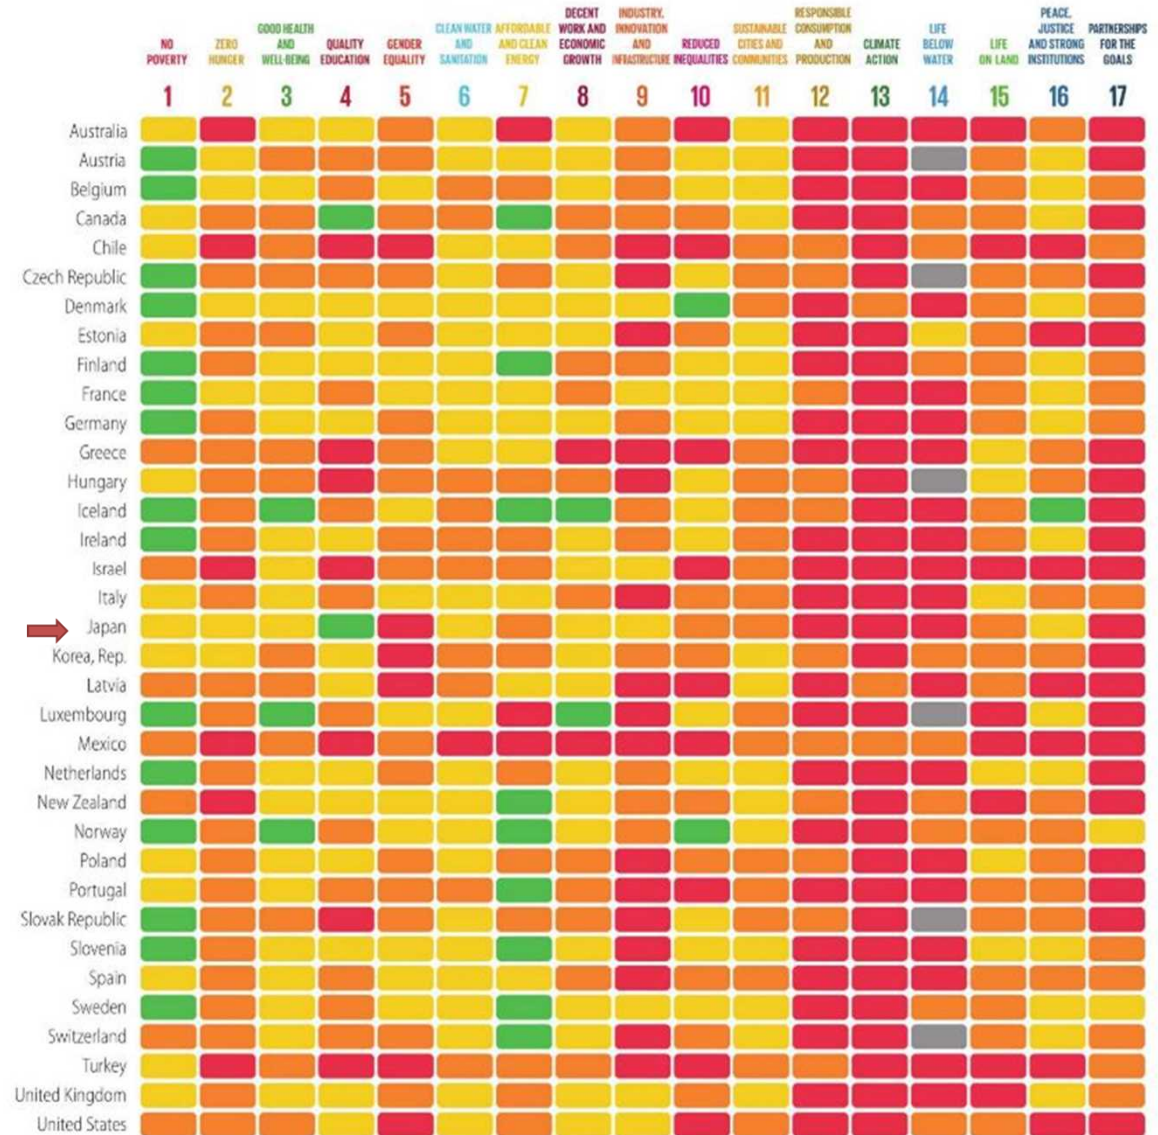

SDG Index & Dashboards 2018

Rank Country Score

1	Sweden	85.0
2	Denmark	84.6
3	Finland	83.0
4	Germany	82.3
5	France	81.2
6	Norway	81.2
7	Switzerland	80.1
8	Slovenia	80.0
9	Austria	80.0
10	Iceland	79.7
11	Netherlands	79.5
12	Belgium	79.0
13	Czech Republic	78.7
14	United Kingdom	78.7
15	Japan	78.5
16	Estonia	78.3
17	New Zealand	77.9
18	Ireland	77.5
19	Korea, Rep.	77.4
20	Canada	76.8
21	Croatia	76.5
22	Luxembourg	76.1
23	Belarus	76.0
24	Slovak Republic	75.6
25	Spain	75.4

Keynote Lecture

ANA's endeavor to connect all 7.5 billion people beyond all

—A global initiative that is not restricted to just one company—

Beyond the boundaries of its air transportation business, ANA took up an initiative: Avatar Project, to create new value in fields such as welfare, disaster prevention, etc.

The members of the project will introduce this unique initiative that collaborates with diverse stakeholders across the world.

Yoshiaki Tsuda

Vice President, ANA Digital Design Lab, ANA HOLDINGS INC.

Akira Fukabori/ Kevin Kajitani

AVATAR Program Director, ANA Digital Design Lab, ANA HOLDINGS INC.

Date: 13:30-14:30, November 9 (Fri), 2018

Venue: Miraikan Hall, 7F, Miraikan

Program No. 102
