

New direction to create innovation

Concept

- To realize the Innovation-superhighway Initiative, promote efforts to facilitate a series of processes, such as making, improving and spreading innovative seeds.
- The private sector plays the main role in creating innovation.
->Focus of R&D and other support done by public sector is facilitating innovation in private sector.
- Improve R&D environment in the spirit of open innovation and select/funnel strategy.

Direction

1. Increase innovative human resources
-> "make"
2. Implement R&D strategy as "knowledge creation"
-> "make" and "foster"
3. Assess, evaluate, demonstrate "made" IPR and support making test product process related to it.
-> "foster"
4. Encourage the dissemination of R&D
-> "spread"
5. Improve R&D environment to realize open innovation
