

## 2010 年度 長山チーム発表論文

- [1-1] T.Miura, “Mechanism of lung branching morphogenesis”, In “Biological and Physical Constraints on the Evolution of Form in Plants and Animals”, Vienna series in Theoretical biology, (in press).
- [2-1] M.Tsutsumi, M.Goto, S.Denda and M.Denda, “*Morphological and functional differences in co-culture system of keratinocytes and dorsal root ganglion-derived cells depending on time of seeding*”, Exp Dermatol 2011 (in press.)
- [2-2] M.Denda, M.Tsutsumi, “*Roles of transient receptor potential proteins (TRPs) in epidermal keratinocytes Transient Receptor Potential Channels*”, Advances in Experimental Medicine and Biology, 704 (2011) 847-860. DOI: 10.1007/978-94-007-0265-3\_44
