

Research Interests

PARTICIPANTS' AREAS OF RESEARCH AND TECHNICAL WORK

*	Committee Member
**	Speaker

*Albin Gasiewski**, *University of Colorado at Boulder*

My research interests are in remote sensing technology for Earth observations and include passive and active remote sensing, radiative transfer theory and applications, electromagnetics, antennas and microwave circuits, electronic instrumentation, airborne sensors, meteorology, and oceanography. My current work focuses on the development of sensors for forecasting, hydrological, and cryospheric applications.
