Kumiko Tanaka-Ishii, The University of Tokyo

Kumiko Tanaka-Ishii is currently an associate professor in the Department of Creative Informatics, Graduate School of Information Science and Technology, the University of Tokyo, Japan. Her major areas of interest are computational linguistics, natural language processing, and language user interface. She was awarded The Commendation for Science and Technology by the Japan's Minister of Education, Culture, Sports, Science and Technology, The Young Scientists' Prize, in 2008. Her major books include "Text Entry Systems ---Accessibility, Mobility, Universality---" (Morgan Kaufmann, 2007, co-editted with Scott MacKenzie), and "Saussure's 3rd course of lectures on General Linguistics" (University of Tokyo Press, 2007, in Japanese, joint translation from French with Kyo Kageura).
