Driving Global Impact (HIRAKU-Global)
—Introducing HIRAKU-Global's International Initiatives to the World—

HIRAKU-Global started in fiscal year 2019, funded by a 10-year MEXT “Strategic Professional Development Program for Young Researchers” grant, and is a consortium of universities in the Chugoku-Shikoku region of Japan aiming to develop innovative, influential and impactful researchers on the world stage. In this webinar, we welcome Professor Tony Z. Jia, HIRAKU-Global Program Manager, to introduce HIRAKU-Global, as well as its researcher development strategy and initiatives promoting “internationality.” This is a valuable opportunity to learn about the great things we are doing in Chugoku-Shikoku!
