

About JST-ANR Joint Call 2024 (CREST “Nano-material Semiconductors”)

○In this Research Area, JST-ANR Joint Call will be done in 2024.

○Except for Normal CREST Call, it is required to submit documents written below.

(1) Proposal (English)

In JST-ANR Joint Call, it is necessary to submit English version proposal, that is common for ANR and JST, made by cooperating French side researcher and Japanese side researcher.

The Joint Call starts early in France (approximately March 11th to June 7th). You should not correct proposal when you submit to JST from submitted to ANR.

※ For example, some reference papers are officially accepted or published after submitting proposal to ANR, you should not correct information about that.

(2) Proposal Summary (Japanese)

You should make Proposal Summary in Japanese and submit it with the same Proposal which was submitted to ANR. This summary is needed to confirm abstract of the Proposal in Japanese, with some topics specific in normal CREST Call, something like “Conflict of Interest”, “Prior e-learning of Research Ethics “and so on.

The Application Guideline of JST-ANR Joint Call is the same as normal CREST Call. You should be known there is no special Guideline for JST-ANR Joint Call.
