May.27,2024	Application Guidelines	5.2(2) Application through e-Rad (p.96)	<p>Please refer to the manuals for researchers on the e-Rad portal site (<a href="https://www.e-rad.go.jp/manual/for_researcher.html">https://www.e-rad.go.jp/manual/for_researcher.html</a>) for how researchers should apply for an R&amp;D project. Applications that do not have the e-Rad status of “research fund allocation institution processing” or “accepted” prior to the submission deadline will be considered invalid. Please check the status of your application by going to the “list of applications/adopted R&amp;D subjects.”</p> <p><u>Regardless of whether the researcher submitted the application prior to the deadline</u>, if the status does not change to either of these, please contact the personnel in charge as described in section 5.3 “Others,” below. Note that the “accepted” status is necessary in order for research fund allocation institutions to manage an application for an R&amp;D project, but this status is not necessary from the standpoint of the researcher having completed his/her application. If the status of the application documents has changed to “application in progress” and the status of the application process has changed to “research fund allocation institution processing, application in progress” prior to the deadline for submissions, then your application has been successfully submitted.</p>	<p>Please refer to the manuals for researchers on the e-Rad portal site (<a href="https://www.e-rad.go.jp/manual/for_researcher.html">https://www.e-rad.go.jp/manual/for_researcher.html</a>) for how researchers should apply for an R&amp;D project. Applications that do not have the e-Rad status of “research fund allocation institution processing” or “accepted” prior to the submission deadline will be considered invalid. Please check the status of your application by going to the “list of applications/adopted R&amp;D subjects.”</p> <p>Regardless of whether the researcher submitted the application and received authorization from the representative of the research institution prior to the deadline, if the status does not change to either of these, please contact the personnel in charge as described in section 6.3 “Others,” below. Note that the “accepted” status is necessary in order for research fund allocation institutions to manage an application for an R&amp;D project, but this status is not necessary from the standpoint of the researcher having completed his/her application. If the status of the application documents has changed to “application in progress” and the status of the application process has changed to “research fund allocation institution processing, application in progress” prior to the deadline for submissions, then your application has been successfully submitted.</p>
