

Cybernetic Avatar Life

SCENE 1 Disaster relief

More than a thousand cybernetic avatars operated by teleoperators will perform large-scale and complicated missions in disaster sites. Professionals in teleoperation will conduct rapid rescue while ensuring their own safety.

Want to be a popstar and help disaster relief at the same time? Thanks to cybernetic avatars, wearing both hats is super easy!

You can remotely operate multiple cybernetic avatars to treat many injured people at once.

SCENE 2 Enjoy sports together

With cybernetic avatars, you can enjoy sports together regardless of age or where you live.

Today a professional player from overseas participated incognito. Even with my physical handicap I can keep up with professional athletes using my cybernetic avatar!

SCENE 3 Have a full holiday

Climb a mountain early in the morning with your cybernetic avatar and watch the sunrise. Then take lessons from a famous pianist in cyberspace. In the afternoon join the live performance of your favorite popstar!

Everything can be done while relaxing on the beach, refreshing your mind and body!

Even large-scale artworks can be created by one artist alone using a cybernetic avatar. Multiple users can also remotely operate multiple cybernetic avatars at the same time.

SCENE 5 Maximizing creativity

This artwork was made in collaboration with an architect. By installing the craftsmanship of the expert into your brain and then combining it with your own ideas, you can try new artistic expressions!

Thanks to cybernetic avatars, my farming can be done anywhere and the vegetable gelato shop I started last year is doing well. My grandchildren live far away but I can see them anytime I want. Every day is fulfilling!

It is possible to prevent and treat diseases with nano avatars taken into the body. Healthy life expectancy is extended, and elderly people can continue to play an active role in society.

SCENE 4 Health and longevity protected by avatars
