

2019 International Symposium

Creating a Sustainable Society through Multiple Generations and Diverse Individuals:

Passing on our Nature, Culture and Wishes to Future Generations

2019
11/1 [Fri]

13:00 ~ 17:30 (open 12:30)

Seating capacity: 200

Registration fee: Free

Japanese-English simultaneous interpretation available

Venue

5F Akiba Hall, Fujisoft Akiba Plaza
[3 Kanda-Neribeicho, Chiyoda-ku, Tokyo]

Organizer

“Designing a Sustainable Society through Intergenerational Co-creation” R&D Area, Research Institute of Science and Technology for Society (RISTEX), Japan Science and Technology Agency (JST)

Creating a Sustainable Society through Multiple Generations and Diverse Individuals:

Passing on our Nature, Culture and Wishes to Future Generations

SDGs (Sustainable Development Goals) set by the United Nations in 2015 are goals that both developed and developing countries will strive to achieve. With an aging population and low birth rate, Japan faces many issues such as fiscal deficit, environmental issues, depopulation in rural areas and increased risks of natural disasters, some of which have to be tackled ahead of other countries. While a range of approaches may be taken to address issues that threaten sustainability of cities and communities, our research area has focused on developing a methodology for multiple generations and a diverse range of individuals to work together on these issues (Intergenerational Co-creation). "Intergenerational" includes generations of the past and future, and not necessarily those

living in the present.

While people tend to possess a decreased recognition that they are the generation responsible for "now," we have discovered that intergenerational efforts can lay a foundation for cooperation in local communities and be potential sources of a new concept of "wealth" while economic growth is approaching to saturation.

We will also introduce cases of intergenerational co-creation in other countries by inviting guests from abroad and provide a global overview on accomplishments on intergenerational co-creation.

program

13:00-13:15 [15min]	Opening Remarks Dr. Akira Morita , Director-General (JST-RISTEX)
13:15-13:35 [20min]	PJ Presentation 1 "Distributed Rainwater Management for a Sustainable Well-being Society" Dr. Yukihiro Shimatani , Professor (Faculty of Engineering, Kyushu University)
13:35-13:55 [20min]	PJ Presentation 2 "Ensuring Sustainability at Local Government Level through Promoting Implementation of Multigenerational Participatory Stock Management Methods" Dr. Hidefumi Kurasaka , Professor (Graduate School of Social Sciences, Chiba University)
13:55-14:15 [20min]	PJ Presentation 3 "Restoring a Beautiful and Rich Inner Bay through 'Fish Local, Eat Local'" Dr. Koji Otsuka , Professor (Graduate School of Humanities and Sustainable System Sciences, Osaka Prefecture University)
14:15-14:25 [10min]	Q&A session
14:25-14:35 [10min]	Break
14:35-14:55 [20min]	Case Study on Intergenerational Co-creation Overseas 1: "Multi-Generational Centers in Germany - Experiences from a Federal Program to Support Municipalities in Responding to Demographic Change" Dr. Nikola Ornig , Head of Department (InterVal GmbH, Germany)
14:55-15:15 [20min]	Case Study on Intergenerational Co-creation Overseas 2: "Promoting Intergenerational Bonding in Asia" Mr. Quyen Ngoc Tran , Regional Programme Adviser (HelpAge International Asia Pacific Regional Office, Thailand)
15:15-15:25 [10min]	Q&A session
15:25-15:40 [15min]	Summary of Overall Area Dr. Takashi Omori , Area Director (Former Chair of Economic Committee, Asia-Pacific Economic Cooperation and Former Professor of Osaka University)
15:40-15:50 [10min]	Break
15:50-17:15 [85min]	Panel Discussion "Exploring the possibilities of Intergenerational Co-creation -How Can Multiple Generations and Diverse Individuals Coordinate to Create a Sustainable Society?" [Coordinator] Dr. Takashi Omori , Area Director (see above) [Panelists] Dr. Nikola Ornig , Head of Department (InterVal GmbH, Germany) Ms. Thuy Bich Tran , Country Director (HelpAge International, Vietnam) Dr. Yukihiro Shimatani , Professor (Faculty of Engineering, Kyushu University) (Shimatani PJ) Dr. Emiko Ban , Senior Researcher (Keio Research Institute at SFC) (Watanabe PJ) Mr. Kiyooki Murakami , Area Advisor (Senior Research Fellow, Mitsubishi Research Institute, Inc.)
17:15-17:25 [10min]	Q&A session
17:25-17:30 [5min]	Closing Remarks Dr. Takashi Omori , Area Director (see above)
